Bigger. Faster. Louder. The new Slayer Pro 4X4™ delivers the screaming sound and ballistic thrust that every nitro driver craves. Now with a 10% larger footprint, Slayer Pro 4X4's new longer wheelbase chassis and wide track stance deliver enhanced stability in rough conditions and radically improved high speed cornering for incredible side-by-side, fender-banging racing action. Extreme TRX® 3.3 power punches hard and revs fast to rip past the competition. The amazing Revo®-Spec linkage-based suspension and hard-anodized GTR shocks deliver seemingly bottomless suspension travel that simulates the handling and jumping ability of full-size Pro 4X4 trucks. Slayer Pro 4X4's new bodywork and officially licensed BFGoodrich® or Kumho tires bring together scale looks and 50+mph performance for all-day fun, excitement, and competition. It's the nitro short-course truck that could only come from Traxxas, The Fastest Name In Radio Control®. Source: [www.traxxas.com](http://www.traxxas.com)
